## What we do

- revegetation – planting indigenous species to reinstate habitat for native animals
- plant propagation every Wednesday morning at Westerfolds Park
- Sunday activity each month
- environmental education
- help protect the parklands by providing input into planning and park issues
- put out a regular newsletter

Historic features in the park provide links with the Wurundjeri people and with bygone farming days.

The Yarra Valley Parklands is one of the most important open spaces in Melbourne, with an area of 1500 hectares stretching along the Yarra River between Burke Road in Ivanhoe and Pound Bend in Warrandyte.

Rarely seen mammals such as the tuan (above) and plants such as the rosella spider orchid (right) live in the park.

Production of this brochure is funded through Melbourne Water's Community Grants Program
